C_ACTIVATE05 - SAP Certified Associate - SAP Activate Project Manager Online Certification & Interview Kit

Duration: 20 Hours Plus

Description

- The "SAP Certified Associate - SAP Activate Project Manager" certification exam verifies that the candidate has the knowledge required in the area of SAP project management. This certificate builds on basic consultant skills and experience that is then refined by practical experience during several projects. This exam validates whether SAP focused project managers have advanced business skills and the ability to apply methodologies and tools. Aside from advanced communication and presentation skills, this certificate also verifies that the project manager has skills to manage internal and external stakeholders, basic knowledge of change management processes, and communicating these processes to others. This exam validates that project manager can successfully manage the end-to-end transition of the project from Sales to Realization, can develop roadmaps for project execution, and understand testing and quality management. In particular for SAP related projects, the exam verifies that the Project Manager can apply the SAP Activate Methodology.
